Uma usagoqe izandla god will not bless you, makungakuthokizisi ukutseleka imali kodwa start something . Lazy people get poor but hard working people get rich noma usunalo ibusiness you must work hard, God bless' hard working hands. The hand of diligent will rule, you must be a person who brings break through even at work. God requires skills, uma ubhaka amakhekhe mawangafani nabanye, be skillfull kuko konke okuthintayo. Build reputation in your business, God must be praised ngedlela owenzangayo. God has called us to produce wealth, you can not have wealth ungenayo indlela yokwenza. Forth industrial revolution(4ir):

Before we begin a mind-set must shift, change how you think, how you do things ,then start. Once you are defeated in mind you cant do it, as young people singabalekeli ama new challenges.

Fourth industrial revolution(4ir):

It was a transformative period in human history that marked the shift from manual labour to machine based manufacturing. It is a world of internet-smart world, smart TV ,smart watch, smart homes where you can open your curtain without standing up. We must love technology as young people in nowadays we do therapy over the computer ,while you are in kzn but help someone in Dubai. You can give people skills on how to bake over YouTube. We need to know how to use fourth industrial revolution(4ir) to advance ourselves. Teenagers-you must do research on careers inline with the 4ir e.g. data science, machine learning engineer etc.

You can even do one month certificate to advance your career.

consider internships :develop and always learning

:come closer to people who know

:change your mind-set and be updatable

:be willing to learn and collaborate with people

who know.

Ephesians 2:10

"For we are God's masterpiece. He has created us anew in Christ Jesus, so we can do the good things he planned for us long ago."

We are called to be purposeful in life in accordance with God's will. Life without a purpose have no meaning, you do any how because you have no purpose. This verse reflect godly character. If we do and practice what we have been taught we will live a better life in the country were there's no peace. God opens opportunity when you work hard. Lets wake up and change the economy. The founder said go and study don't rush to be a preacher without education other wise you will give people a problem, don't be choose when it comes to jobs.

Forth Speaker :
Bab Zondi from
KwaNdengezi
AOG-BTG.
VZ coatings
Director and
founder.

HOW DID I END UP HAVING VZ CAOTING?-I got the job, got promoted. -

I ended up being a face of the company.

- Never planned to be a businessman.

-In my dreams, I had no intentions of starting a business.

-In 2012, I resigned; I went to start my own business.

-In 2013, I started a business with an Indian man. It was very hard when we started the business; my business partner was giving me a hard time. I planned to commit suicide three times, but it never worked. God kept saving me, and at that time, I was married and had a family. Despite all the challenges I faced, I had so much faith in the word of God. In every hard situation, there is a voice that always speaks in my ears saying, "I KNEW YOU BEFORE I FORMED YOU IN YOUR MOTHER'S WOMB; BEFORE YOU WERE BORN, I SET YOU APART" (Jeremiah 1:5). I am living a second chance; I do not live by my power and strength, but God gave me another chance to live. As for Zondi, I realized that fancy terms won't serve the purpose, but let me tell you my story because this company is not man-made. When God gives you a business, He trusts you. You need to invest, and I prefer to invest in God. In my local church at KwaNdengezi AOG-BTG, every Monday, I always came to the front to ask for prayers, so my business is the product of prayers. Now I have a branch in Jacobs. The people who were my managers in the company I worked for are now working for me.

Fifth Speaker :
MR
MVUYANE

- >Bussinessman
- >Owns a construction company.
- >Studying Doctorate in business administration.

I am excited to see the church facing the reality; youth, we need to change how we do things. Many people insult their bosses because they are too lazy to work. When you are an employee, they don't like you, and when you are a Black person, they see you as just a worker. You must value a person by their qualities, not by their cars; stop judging people based on their cars. Our mindset must change. Don't go for expensive things; change your family and be the one who will uplift your community. Don't rent in high places you cannot afford; stop trying to impress.

Pursue whatever business that will profit you. As much as you are selling your products to people, you must also go and ask for supplies at Spar send your products. Be fair with your product-can you buy it yourself? As for me,

I have done a lot of things: > I am in construction > sold cleaning products > I had a taxi > I was a teacher, and I resigned > Then I sold properties.

Look for opportunities; create something good with your hands. Right now, I am studying, and in four years, I will have a doctorate in business administration despite my age. We are planning to start a private college with my three colleagues. Make something with your hands. I am happy about what I see; we must not dance one way at church, but now we are going somewhere. Well done to the youth committee for starting this program. Not everyone will go into business, but those who will, have our full support.
